---

## SUMMARY

MERN stack developer skilled in MongoDB, Express.js, React.js, and Node.js, creating flexible, responsive, and high-performing web applications.

---

## SKILLS

- **Languages** : JavaScript, HTML, CSS
- **Frameworks/Libraries** : React.js, Node.js, Express.js, Tailwind CSS
- **Database** : MongoDB

---

## EXPERIENCE

### Fitness GYM : [Live](#)

- I participated in the Paranox Contest organized by TechXNinjas and Azion from October 24th to 31st, 2024.
- Developed a responsive ReactJS landing page for a fitness gym and secured 13th position.

---

## PROJECTS

### Ecommerce Website - Little Basket : [Live](#)

- Little Basket is a ReactJS-based eCommerce site for vegetables, fruits, and non-vegetables.
- Implemented secure sign-up, login features with authentication for user security.
- Created a user-friendly basket, Backend built with Express.js and MongoDB for database.

### Text Generator : [Live](#)

- I developed a playful text generator using React.js, Node.js, and Express.js to create fun messages for easy sharing on WhatsApp.
- Features a text box for generated messages, enabling quick copying and sharing across devices.

---

## EDUCATION

- **Bachelor of Computer Applications**  
Sri Narayan Singh College, 2023 - 2026
